

“Waste not, want not” ... that familiar term! How true it is though – do you constantly review your business costs?

FOR EVERY TONNE of AVOIDABLE food waste produced this will cost your business around £1,800.

We know that the millions of visitors to Wales each year come for the fantastic landscape, wonderful beaches and CLEAN, FRESH AIR. We all need to make every effort to keep it that way!

Working with WRAP Cymru, Outsource Me is able to provide your business with 5-10 days FREE advice – overviewing your waste management, packaging, purchasing options and how to use resource efficiency as a marketing tool

OUTSOURCE ME will not only save you money, but bring you more customers!
